The Clipboard has Evolved.
Experience the difference!
Take the pain out of copying & pasting with ClipClip.
[FREE DOWNLOAD](#)
ClipClip is compatible with Windows 10

What is a Clipboard Manager?
ClipClip is a free clipboard management software for Windows that will revolutionize the way you copy and paste. ClipClip makes it possible to copy multiple texts, images or files to your clipboard. You can then browse or search through these latest clips, or convert them to Saved Clips so you can assign a title and organize them into folders to use later on.
By pressing CTRL+SHIFT+V you can view a list of all of your past clips, so you can paste without losing focus of what you were working on. Whether you're an engineer, lawyer, manager, executive, accountant, salesperson, office clerk, customer support rep or just someone who uses Copy & Paste frequently, ClipClip can make you more productive!

Improve your workflows with ClipClip.
Get started today, it's Free!

About ClipClip
ClipClip is a clipboard management software for Windows. It saves any type of information that can be copied to the clipboard such as images, texts and links, so you can view, edit, and organize them.
